

Tamboi Queen Cruises Floating Classroom.

Tamboi Queen Cruises offers marine education that is fun and informative in a classroom like no other. Student will receive exceptional knowledge on marine mammals, Port Stephens Great Lakes Marine Park and nautical terminology.

While on board the students can get up close and personal to our local bottlenose Dolphins and marine environment as we cruise the pristine waters of Port Stephens which is the largest Marine Park in NSW.

You have the option of a Local Experienced Education Officer that is available for approx. 45min before their cruise departs that will cover marine topics and answer any questions the students have. The educational package includes worksheets, theory and practical studies and lots of fun.

Children learn and retain information easier when presented in a fun and relaxed environment. Tamboi Queen Cruises prides themselves for have the skills to relay messages that are informative but easy to understand using association techniques examples and hands on displays.
